CONTRACT

# WOOD FURNISHINGS

As a member of the Howard Miller family of companies, Hekman Contract draws upon a rich 100 year history of producing fine wood and upholstered furniture in the United States.

We combine detailed craftsmanship with modern CNC machinery to create beautiful, high-quality furniture that works in a variety of environments and is built to withstand the rigors of heavy-use. Our finishes are applied using environmentally safe processes and materials and feature antimicrobial agents. We source wood only from sustainable forests and employ optimization software that reduces waste. We even use our wood scrap and saw dust to heat our plant.

# LAMINATE FURNISHINGS

Cleanability, durability and functionality are all hallmarks of Hekman Contract's laminate furniture. Carefully curated finishes provide the warmth and appeal of wood while delivering outstanding resistance to harsh cleaners. Laminate is resistant to hot and cold liquids and will stand up bumps from wheelchairs and walkers. It won't fade nor easily scratch, chip or dent. Rounded edges protect residents and staff and our special Thermoshield construction method prevents moisture penetration and microbial buildup by eliminating seams in surfaces.

We offer an entire collection of room furnishings designed for residents suffering from dementia. This collection, called Reveal, was developed with the help of memory care experts and includes unique features designed to improve the quality of life of your memory care residents.

# UPHOLSTERED FURNISHINGS

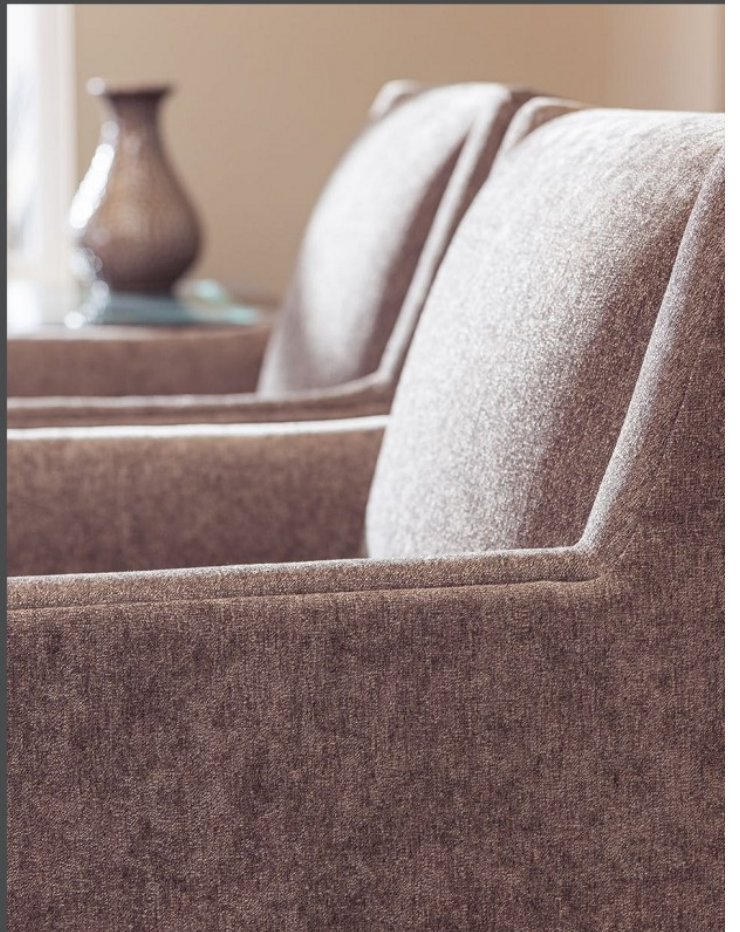

Built in North Carolina, the heart of America's furniture industry, Hekman Contract offers a full line of upholstered seating; from dining and accent chairs to sofas and loveseats, lounge chairs and recliners to benches and banquettes. Our vendors provide fabrics that resist moisture and provide antimicrobial properties while delivering outstanding wear and cleanability. Wood finishes feature hardeners and antimicrobial agents for added protection.

What's under the fabric is just as important. Our frames are built of quality hardwood and plywood that's both glued and screwed for extra strength. Materials like webbing, springs, foam, moisture barriers and mechanisms are selected to ensure reliable long-term performance and durability for many years of comfortable living.

# FURNISHINGS for GATHERING and SOCIALIZING

Hekman Contract provides a wide range of furnishings that encourage residents to gather for Happy Hour, watch a movie, play a game, read a book or visit with family.

We offer pub and game tables, card tables, hospitality carts, TV consoles – even bars and wine carts. We have club chairs, bar stools, tablet chairs, sofas, recliners and motion chairs, and more.

Many of our storage and TV consoles can be customized to provide the best configurations and features for common areas. Door fronts are available in wood or glass with a variety of finishes and decorative panels and inserts.

# TABLES

Hekman Contract makes tables for all living environments in a variety of shapes and dimensions. Tables for socializing and entertainment, dining and cafe tables, as well as game tables, activity tables, even poker tables. Tables for living environments such as end tables, sofa and coffee tables, along with accent and occasional tables. Even specialty use tables like over-bed tables, bishop tables, and nesting tables.

A variety of surface options are offered to meet any need and budget, including wood, high pressure laminate, Thermoshield seamless laminate, or solid surfaces. Many of our coffee and end tables have optional veneer or matching high pressure laminate tops.

# IN-STOCK FURNISHINGS

Hekman Contract offers fine, heirloom quality residential and specialty furniture from respected consumer brands Hekman Furniture and Howard Miller — including grandfather clocks, curios, and home storage, as well as full collections of bedroom, dining room, and office furniture groups. Many of our pieces are heirlooms that can be handed down for generations.

We maintain a robust, in-depth inventory of literally thousands of these SKUs, making it easy to create the most comfortable living environment for your residents. Plus, most items ship in 3-5 days from our warehouses in North Carolina and Michigan. Best part, if you're registered on our website you can even check inventory levels yourself.
